# What you see

Information tables taken from Klinka et al. 2000. Ecology and Silvics of British Columbia Tree Species

1. Choose the site or subzone from the list of sites/BGCs you’ve run; then choose the site series of interest
2. Choose information table tab
3. Ratings for factors by species

# Options

- a. Toggle to select only CCISS feasible trees or show all species predicted as suitable in any model.
